Destiny® 1200

GARAGE DOOR OPENERS

Quiet yet Powerful Performance and the Ultimate in Convenience

- **Integrated Wi-Fi with OHD Anywhere®** lets you control and monitor your opener from almost anywhere
- **Built with design flexibility in mind,** choose to have your opener with or without integrated battery backup; also choose between a belt or chain to suit your preference
- **Powerful 140V DC motor** delivers maximum power needed to operate almost any door
- **Quiet and smooth operation** ideal for room adjacent garages that demand minimal noise

The Genuine. The Original.

OVERHEAD DOOR®

Standard Features

DC Motor Technology
Our most powerful residential motor delivers 140V quietly.

Quiet Operation
Belt or chain drive provides smooth and quiet operation, perfect for garages adjacent to rooms that demand minimal noise. Belt drive offers the ultimate in quiet.

CodeDodger® Access Security System
Selects a code from billions of combinations each time a remote, wireless keypad or wireless wall console is used. Helps prevent piracy of the radio signal for the utmost in security.

Speed
Maximum opening speed of up to 9 inches per second.
(+/-0.5 inches per second. Speed will slow with one-piece doors).

Patented Auto Seek Dual Frequency Technology
The opener listens for both the 315 or 390 MHz frequency emitted by a remote, wireless keypad or wireless wall console, allowing reliable operation and reducing frequency interference.

DoorDetect™ Monitoring and Diagnostic System
Delivers the optimal amount of power needed to efficiently and smoothly open even the heaviest doors. Stops the door when abnormal operation is detected for additional safety.

Self-diagnostic Safe-T-Beam® System
When objects pass through the infrared beam, the door automatically stops closing and then reverses.

Two-bulb Light System with Motion Detection
Two 100 Watt bulb lighting system with integrated motion detector provides convenience and security. Optional Overhead Door® LED bulb recommended.

Compatible with both HomeLink® and Car2U® Systems

Smart Garage Door Openers Integrated with OHD Anywhere®
Remotely monitor and control your sectional garage door from almost anywhere with your smart device.*
OHD Anywhere® is compatible with most iOS and Android mobile devices.

- Ability to monitor the door position (open or closed) and any change to the position
- Allows multiple user accounts to give others virtual access to your garage door
- Ability to know if an authorized user is operating the door with the OHD Anywhere® app
- Time-based features allow you to schedule door operation
- Maintains access history report for each opener
- The OHD Anywhere® app allows control of multiple OHD Anywhere® Wi-Fi integrated garage door openers
- See website for complete list of smart home system partners

6' Power Cord
For high ceiling applications

Model 8130H-B

Battery Backup Included
The Overhead Door® Battery Backup unit provides peace-of-mind, allowing opening and closing of door during a limited power outage.

* OHD Anywhere® is designed for sectional garage doors only and should not be used on one-piece garage doors.

California Residents:
This opener has the option to add Battery Backup. As required by California State Law SB-969, all newly installed openers must have battery backup as of 07/01/2019. To order this opener with battery backup, refer to Model 8130H-B. For more information visit **overheaddoor.com** or ask your Overhead Door™ Distributor.
